1. Introduction

This guide provides instructions proceeding in steps for configuring a mobile device, including basic setup, network settings, security configurations, and advanced options.

2. Prerequisites

Before beginning the configuration process, ensure the following:

- Check if the charger cable is  plugged in or there is enough charge on mobile device
- A SIM card  (if required)
- Access to the active internet connection (Wi-Fi or mobile data)
- Necessary login credentials (Google, Apple ID, etc.,)

3. Device Compatibility

Supported Mobile Platforms

- **Apple Devices: iOS 14**  and above
- **Android devices: Android 11**  and above

4. Configuration Steps

4.1. Initial Setup

1. Powering On the Device

- Press & hold the  **Power button** until the device vibrates or the logo appears.

2. Select preferred language and region

- Choose your preferred language and region from the option provided, then tap **Next**.

3. Connecting to a Network

1. Choose a **Wi-Fi**  **network** from the available list.
2. Enter the password and tap **Connect**.
3. If using mobile data  or , insert a SIM card and ensure mobile data is enabled in **Settings**  **> Network & Internet**.

4. Signing in to an Account

- **Android:** Sign in with a Google account .
- **iOS:** Sign in with an Apple ID .

- Enter your corporate email and password if prompted, or select “Skip” if using MDM

- If you don't have an account, create one during setup.

5. Setting up Security Features

1. Choose a screen lock option: **PIN** , **Pattern** , **Password** , or **Biometric** (Fingerprint  /Face ID ).
2. Follow on-screen instructions to complete the setup.

Note:

1. Settings  > Face ID  / Touch ID  & Passcode  (iOS ).
2. Settings  > Security  (Android ).

5. Configuring Essential settings

5.1. Display & Sound settings

- Adjust brightness: Settings  > Display > Brightness

- Set ringtone & notifications: Settings  > Sound  & Vibration 

5.2. Network & Connectivity

5.2.1. Wi-Fi Setup:

- Go to Settings  > Network & internet > Wi-Fi 
- Connect to **Wi-Fi** .

5.2.2. Mobile Data:

- Go to Settings  > Sim & Network > Mobile Data
- Connect to Mobile Data  or .

5.2.3. VPN Setup (If required):

- Go to Settings  > VPN 
- Tap “Add VPN Configuration” and enter the required information.
- Connect to the VPN .

5.2.4. Configure Proxy Settings (If required):

- Go to **Settings**  > **Wi-Fi** 
- Click on the network name, scroll down to “**HTTP proxy**” , and enter proxy settings.

5.3. App & Storage management

- Install apps from **Play Store**  / **App store** 
- Manage storage: **Settings**  > **Storage**
- Uninstall unnecessary **Apps**  .

6. Advanced Configuration

6.1. Enabling Developer Options(Android)

- Go to **Settings**>**About Phone**
- Tap **Build Number** 7 times to enable **Developer Mode**.
- Access **Developer Options** under **Settings**  > **System**.

6.2. Configuring APN (Access Point Name)

- Navigate to **Settings**  > **Mobile Network**  or  > **Access Point Names**
- Tap **Add APN** and enter the carrier details
- Save and restart the device.

7. Troubleshooting Common Issues

7.1. Device cannot connect to Wi-Fi:

- Ensure **Wi-Fi**  is turned on and the correct password is entered. Restart the device if necessary.

7.2. Applications fail to install/download:

- Check internet connectivity and ensure the device has sufficient storage.

7.3. Mobile data not working:

- Check APN settings, restart device.

7.4. Battery drains quickly:

- Disable background apps, reduce brightness.

7.5. Device encryption errors:

- Ensure the device is charge and connected to a power source before attempting encryption.

8. Best Practices

1. Regularly update device software and applications.
2. Maintain a secure backup of important data using cloud  services.
3. Report any lost or stolen devices immediately.
4. Regularly review and manage permissions for installed applications.

9. Conclusion

This guide covers essential steps to configure a mobile device. For additional support, refer to the manufacturer's website or contact customer service.

10. Appendix

10.1. Glossary of Terms:

- MDM: Mobile Device Management  .
